NURSERY AVENUE SURVEY WORK

PURCELLVILLE, Va. April 14, 2015 — Beginning on or about April 20, 2015, and continuing through July 20, 2015, survey crews with the engineering firm of ATCS will be gathering information along Nursery Avenue, between Main Street and School Street. This work is being done as a part of the Town's contract with ATCS to design the improvement of Nursery Avenue, a project to enhance safety and improve the existing roadway and drainage. This survey is simply for the purpose of gathering data and is one of the early steps toward determining the feasibility of roadway improvements. ATCS's vehicles are clearly marked and employees will carry identification which they will produce upon request.

The Town of Purcellville, Virginia

Purcellville is an award-winning town of nearly 8,300 residents located in Loudoun County, approximately 40 miles west of Washington, DC. It has been honored for its green initiatives, most recently with the prestigious Siemens Sustainability Award for Small Communities. The Town has an elected Mayor and six Town Council members. Once a stop along the W&OD rail line, Purcellville has maintained its historic old-town feel through the restoration and maintenance of its many downtown structures, reflecting the Victorian architecture popular during the early 1900s. Today, Purcellville is the economic hub of western Loudoun County and a popular weekend destination for antiquing, entertainment, farmer's markets, wineries, breweries, distilleries and restaurants.
